

A SIGNAL SUCCESS

The Celebration of the Twenty-Ninth Anniversary of the Ancient Order United Workmen at Fairmont—Distinguished Persons Present.

Special Correspondence.
FAIRMONT, W. Va., Dec. 12.—The people of Fairmont and vicinity were very forcibly reminded Friday night, that there is such an organization as the Ancient Order of United Workmen. The occasion was the celebration of the twenty-ninth anniversary of the order by a public entertainment given by the members of the lodge, at the opera house, and as an evidence that the society is a popular one in this community, it is only necessary to say that the building in Fairmont which is accorded the dignity of the name "opera house," was packed by an audience composed of enthusiastic and appreciative friends. The reception tendered the orator of the occasion, Past Supreme Master Workman J. G. Tate, was brilliant in the extreme, largely due to the zealous efforts of Grand Master Workman Sam H. Nuzum and the co-operation which he had in the undertaking, by all the people, contributing as they did to make it so prominent a success, may very properly be regarded as a tribute to our distinguished fellow townsman, Mr. Nuzum, who occupies so prominent a position in this philanthropic order.

The programme of exercises rendered was substantially as follows: March, Gayest Manhattan, by the Fairmont band, a most excellent musical organization, which never fails to entertain its hearers, and which never rendered more beautiful strains than on this occasion. Judge W. S. Hammond, acting as chairman of the meeting then delivered a few very appropriate remarks, after which he introduced Hon. B. B. Dovenor, member of Congress from the First West Virginia district. Mr. Dovenor's professional and congressional duties, and his being a very enthusiastic advocate of the principals of the A. O. U. W., and for twenty minutes he eloquently held up before his audience the shield of protection which the Ancient Order throws around the homes of America.

The band then rendered the Golden Hymn, an overture, after which Miss Anna Lee Samuels, Fairmont's most popular soprano, rendered a vocal solo, "Only Once More," with hand accompaniment. Miss Samuels, who never disappoints her hearers, on this occasion even excelled her own previous efforts.

Mr. Will C. Lyons gave a cornet solo, "The Old Kentucky Home," with variations, which elicited round after round of applause, and "The Close of Day," a tuba solo, by Mr. S. H. Nuzum, was equally well received.

Past Supreme Master Workman, J. G. Tate was then introduced and for more than an hour, by his eloquence and force of manner he drew the rapt attention of the entire audience. Mr. Tate is from the state of Nebraska, and the merited reputation of that state for eloquence will not suffer anywhere with him as its representative. The address was a masterful presentation of the work and benefits of the order which he honors by his connection therewith, and cannot but result in a very marked extension of the membership and influence of the A. O. U. W. in this community.

The entertainment closed with a lecture by Judge Hammond very impressively, entitled "The Voyage of Life," illustrated by stereopticon views.

Inter-Society Contests.

Special Dispatch to the Intelligencer.
MORGANTOWN, W. Va., Dec. 12.—The literary societies of the West Virginia University last night elected their representatives in the annual inter-society contest to take place next June, during the commencement season. The Columbian society elected Clarence E. Martin, declaimer; J. F. Nelson, essayist; J. C. Criles, orator, and Holly A. Thompson, debater. The Parthenon society elected L. A. Yeager, declaimer; S. A. Smith, essayist; T. H. Kerner, orator, and W. S. Deffenbaugh, debater. The Parthenon society elected C. F. Holden, A. G. Maynard and L. A. Sawtelle and the Columbians B. H. Trussell, S. H. Bowman and C. R. Ogden to contest for the honor of representing the university in the annual inter-collegiate oratorical contest. The Columbian society gave its annual public entertainment in commencement hall on Friday night, before a large audience.

Violating the Game Laws.

Special Dispatch to the Intelligencer.
MORGANTOWN, W. Va., Dec. 12.—The state's attorneys in all of the counties in this section are besieged with complaints that hunting parties from Pennsylvania are violating the West Virginia game law and bagging large quantities of quail, pheasants and wild turkeys. Several parties have been apprehended and fined, but in most instances they escape. There have never been as many wild turkeys in this section as are to be found in the Cheat mountains now, and quail and rabbits are plentiful.

Sensible Action.

Special Dispatch to the Intelligencer.
PAIKERSBURG, W. Va., Dec. 12.—The Ohio River Railroad has refused to run excursion trains to Ripley on the occasion of Morgan's hanging, on the 16th. Numerous requests have been made to the management, but they are averse to catering to morbid curiosity.

Wool Market.

Bradstreet's: The demand is moderate and the general tone quiet, but values are very steadily maintained as a rule. Some buying is reported at market rates, and were dealers disposed to make moderate concessions in price the business would be largely increased. The London auction sale closed December 7, with 165,000 bales sold out of 212,700 bales offered, the balance being withdrawn. England took 37,000 bales, the continent 65,000 bales, and America 5,000 bales. The next series will commence January 13, with the second series March 15. Prices at the close showed good merinos and crossbreds unchanged, and other kinds at par to 34d lower. Australian reports advise firm prices and some wool being purchased for America. On this market Australian wools hold firm and fair lines are being sold. Territory wools hold steady, with fleeces dull, but steady.

Robbed the Grave.

A startling incident of which Mr. John Oliver, of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying Electric Bitters, and to my great joy and surprise, the first bottle did me good for three weeks, and am now a well man. I know they saved my life and robbed the grave of another victim." No one should fail to try them. Only 50 cents per bottle at Logan Drug Company's drug store.

ONE Minute Cough Cure cures quickly. That's what you want! Street, Chatham Sinclair, Fort-sixth and Jacob streets. A. E. Roberts, No. 607 Main street; Esley Bros., No. 240 Main street; Bowie & Co., Bridgeport.

FINANCE AND TRADE

The Features of the Money and Stock Markets.

NEW YORK, Dec. 11.—Money on call 1 1/2 to 2 per cent. Time money during the week has shown no features of novel interest. The business has consisted mainly in renewals of maturing obligations and the creation of a moderate amount of new loans. It is hardly necessary to say, in view of the present status of many of the banks, that where concessions have to be made as to price and collateral, it is the lender that makes them. Rates, 2 1/2 per cent for thirty to sixty days; 3 to 3 1/2 for ninety days to six months.

The stock market reflected the tendency of professional traders to close up contracts at the end of a week rather than keep them open Sunday, and also a natural reaction towards a higher level after yesterday's revival in prices. There was some bear pressure against prices at the opening, Manhattan being driven down 1 1/2 points, and Sugar yielding a point after a small gain. But this lead failed to induce any large following and it became apparent that yesterday's liquidation had not run its course for the present. The bull contingent was prepared to offer vigorous support to weak spots, and large buying orders for their account turned the tide. Sugar was the center of the market's strength, and the bears' resistance of prices drove the bulls to cover. There was a noticeable sluggishness of price movement in some of the most prominent stocks in the market on the rise. Sugar was quite buoyant, and rose to within about two points of the highest of the week, closing with a net gain of 1 1/2 points. Its range for the day was 3 points. Manhattan showed a good recuperative power, and rallied within a fraction of last night's close. Besides the technical causes for the rise, the market was aided by the recurring possibility that a decision may be handed down by the supreme court on Monday in the Nebraska maximum freight rate case. Wall street traders in raised securities maintain an abiding faith that when this decision does come it will be in favor of the railroads, and the fact that Monday is decision day with the supreme court has made Saturday a day of timidity with shorts ever since the decision has been pending with the court in session. Assertions were also given consideration that there is a possibility of favorable action by Congress on bills to authorize pooling and against ticket "scalping," and this added to the strength of the railroads. Northern Pacific, which has been the beneficiary of the dividend, declared yesterday by the directors, since the reorganization of the company, and of the favorable statement of earnings, given out at the same time. The slight recessions from the best of the close was probably induced by the bank statement. The large shrinkage in the surplus is due not alone to the raising of the legal reserve limit by the heavy increase in deposits, but by an actual decrease in cash of \$1,012,700. The items of loans and deposits, with the large increase shown, are affected by the heavy payments on account of the Union Pacific sale. There has been a movement of currency to St. Louis and New Orleans during the week, which probably accounts for the decrease in cash.

The price of the United States new 4's was bid up to 1/2 per cent, and the old 4's registered 1/2 per cent. The week's net gains have been reduced, as was the case last week, by the profit-taking of professional operators on Friday. The manipulation of the market by the large interests which have embarked on a bull campaign, is very obvious during the week, and strong efforts were made to keep the course of prices upwards by vigorous support at weak points, and by inclining sharp rises in individual stocks to sustain the general list.

Some of the reports set afloat to effect this latter purpose contradicted themselves in the course of the week, and nothing could then prevent a decline in the price of the particular stock, with a consequent unsettling effect on the market. Thus sugar was pushed up to 14 1/2 cents during the week, and the very reports that it would be raised to 15 cents, and the declaration of only the regular dividend drove the price down below 14. All of the local traction companies' stocks were rushed up on reports that the underground rapid transit plan was to be declared against by the court, accompanied by the assertion that a failure to approve the plan this week would be equal to disapproval, since it would not leave time to put the plan into operation. These stocks came down on Friday, and helped to break the market. Northern Pacific preferreds, which have been the favorite reports that action on the dividend would be postponed. These declines uncovered stop loss orders all through the list, and broke the market, and served materially to reduce the net gains on the week. Union Pacific was persistently weak on account of the President's order that the government should qualify as a bidder at the Kansas Pacific sale, and the subsequent request for the postponement of the sale. The week's returns for railroad earnings have made a remarkably favorable showing, the November statement of the New York Central being a notable exception.

Roads in the south and southwest have shown especially heavy increases, and their stocks have shown the largest gains in price. Money has continued cheap and easily obtainable, and there has been offerings of Chicago money on time loans in this market. Notwithstanding the ease of local money rates, and in spite of a sharp stiffening of discount rates in London and Berlin, the foreign exchange market has shown increased weakness. Actual rates for sterling have fallen 1/2 per cent during the week, due to the offerings of bills against grain and cotton, and to an abatement of the investment demand for sterling. Chicago credits are reported to be loaned in Berlin at 4 1/2 per cent to the extent of several million dollars. The abundance of grain bills, which has served to weaken exchange, is said to be due to the operations of the bull clique in pushing exports of wheat.

The strength and activity of the bond market have been even more remarkable than in the stock market. High grade bonds have been thoroughly gone over and lifted almost to prohibitive prices, the government bonds rising with the others. The demand has shifted to middle grade bonds, which have shown material advances. Speculative issues have moved in sympathy with the stocks, but are higher on the week.

United States new 4's have been bid up during the week 1/2 per cent, the old 4's reg. 1/2 per cent, the 5's 1/2 per cent, and the old 4's coupon 1/2 per cent.

The Finance section.
The Union Pacific reorganization, though the last week made an additional payment of \$5,000,000 on account, and this sum, passing into depository banks, has increased the averages of the clearing house institutions no less than nine millions in deposits. The increase in loans connected with the same transaction, but it has now the total loan to \$697,725,300, which is by far the largest ever carried by the New York Central.

The effect of the transfer of the bonds of the Union Pacific to the new purchasers may be traced in the expansion of the loan fund of the banks during the next five weeks.

On November 13 last loans stood at \$575,300,000, as compared with \$567,725,000 December 11. The loan increase, therefore, has been over \$22,000,000. In the same time deposits have increased \$10,000,000 and cash reserves \$3,000,000. Admitting that the regular monthly demand for accommodation has some place in this change, the main cause is the increase in the enormous increase in the operation in connection with the Union Pacific syndicate. The deposits of the bank most prominent in the financing of this deal have grown nearly \$22,000,000 in four weeks, and its

loans \$12,000,000. The banks have been gaining cash from the interior for a number of weeks past, but the effect, for the reasons just set forth, have been greatly minimized. The rapid expansion in deposits requires each week a heavier reserve, and the operations of the past six days have resulted in a decrease in the surplus cash in banks of \$12,552,525, bringing the excess reserve to \$18,857,425, the lowest since October 14 last. That the notes are of a special character is also shown in the item of cash, the loss for the week having been \$1,012,700. This shrinkage can be traced to several large institutions, one of which has probably decreased its cash through the payment of the sugar dividend. There will be more or less shifting of funds as the first of the year approaches, in anticipation of the heavy dividend payments and another installment of the Union Pacific money is due at that time. The effect will be to make material changes in forthcoming bank statements, but with the supply of available funds in sight and the credits held abroad, there does not seem to be much chance for anything like a permanently higher level for money rates. The government's payment of maturing bonds the first of the year will release a great deal of money now locked in bank vaults as special deposits.

Evening Post's London financial cablegram:
The stock markets here were quiet today, but with rather a better tone, owing to the smoothness of the mining carry-over and lighter contingents than had been expected.

It is anticipated that the general settlement next week will show a small account, but money will be dearer. Americans were easier on realization here in anticipation of the settlement. Copper shares were dull but steadier.
